9. Village demonstrating sound financial management practices and policies including cost-effective service delivery
10. Comprehensive Plan and associated master plans guide Village decision making
11. Transparent and ethical decision-making process by Village officials

Policy Priorities

1. Economic Development

SUMMARY: The Village identifies three goals for economic development: job growth in excess of population growth; increasing the share of the tax base coming from non-residential growth; and increasing career opportunities by attracting high-skilled jobs in expanding industries.

Various economic incentives are available under Ohio law to help municipalities achieve their public objectives.

Because of Johnstown's assets and the desire of area residents to plan for the future and retain a community that is different from other growing suburban areas, economic incentives may not be offered to every firm that is eligible under state statutes. Instead, incentives will be targeted toward businesses meeting the objectives defined by the Village.

Policy to Consider:

- a. Business Retention
- b. Business Attraction
- c. Downtown Development
- d. Economic Development Plans
- e. Incentives
- f. Business Park

2. Finance and Budgeting

SUMMARY: The financial integrity of our Village government is of vital importance. Written, adopted financial policies have many benefits, such as assisting the Council and Administration in the financial management of the Village, saving time and energy when discussing financial matters, engendering public confidence, and providing continuity over time as Council and staff changes occur.

The Village of Johnstown budget emerges from a foundation of Council and administrative policies. These financial and budget policies create a framework for decision-making as we develop the Village budget.

Village staff members develop annual operating budget requests after receiving general direction from Administration. The budget determines what services the City will offer, the level of these services, and how funds will be provided to finance them.

Policy to Consider:

- a. Expenditure Policies
 - i. General Expenditure Policies
 - ii. Enterprise Expenditure Policies
 - iii. Maintenance and Replacement
 - iv. Capital Improvements
- b. Revenue Policies

- f. Recreation Activities
- g. Parks and Recreation Management
- h. Recreation Center

5. Planning & Zoning

SUMMARY: Manage new development, redevelopment and reuse to ensure that it is orderly, balanced, and compatible with the Village's desire to maintain, protect and enhance its existing residential character, to improve upon the viability of its commercial areas, provide open/green space, encourage pedestrian/bicycle linkages, and protect environmentally sensitive lands.

We must provide necessary public facilities and utilities for existing development based on level of service standards, and plan for the provision of land for necessary public facilities for new development. Designate the financial resources needed in the Five-Year Capital Improvements Program. Public facilities shall be provided in a manner to discourage urban sprawl.

Future development will be directed as designated on the Future Land Use Map. Designations are established to protect residential neighborhoods, balance inconsistent land uses, provide opportunities for redevelopment and renewal of blighted areas, and encourage mixed use development.

Identify, designate and preserve historically and architecturally significant resources including structures, landmarks, and archaeological sites.

Policy to Consider:

- a. Annexation
- b. Codes
- c. Historic Preservation
- d. Inspections
- e. Land Use Controls
- f. Master Planning
- g. Planning
- h. Urban Design
- i. Zoning
- j. Zoning Code Enforcement

6. Public Safety

SUMMARY: Providing for the public's safety is ultimately the responsibility of municipal government and one of its highest priorities. —Public safety means not only putting an end to the levels of crime and violence that impact the everyday lives of our residents, but just as importantly, delivering life-saving rescue services, preventing fires, and preparing for and responding effectively to domestic terrorism and natural disasters.

The primary goal of local public safety and crime prevention efforts is to ensure that the Village provides a safe, healthy environment in which residents can live and businesses can thrive. To achieve this goal, federal, state and local officials must view the safety of the community in holistic terms. Officials must recognize the danger of focusing exclusively on prevention, intervention, or punishment. Public safety efforts are more likely to result in safer communities if all solutions are integrated into a single strategy.

Policy to Consider:

- a. Animal Control
- b. Community Policies
- c. Crime Prevention
- d. Curfews
- e. Disaster Recovery
- f. Emergency Management
- g. Emergency Preparedness

- a. 311/CRM Systems
- b. Computer Use
- c. E-Government
- d. Geographic Information Systems
- e. Imaging and Records Management
- f. Telecommunications

10. Transportation

SUMMARY: Our transportation systems influence virtually every aspect of community life. They are the means for moving people, goods and services throughout our communities, the region, and, increasingly, to destinations around the world. Of equal importance, these systems have played a significant role in shaping patterns of growth, facilitating economic prosperity, and influencing the character and livability of our communities.

Policy to Consider:

- a. Cycling
- b. Parking
- c. Public Transit
- d. Traffic Management
- e. Transportation Planning & Finance
- f. Walking
