### About the Projects

The Delaware County, Franklin County, Licking County Transportation Improvement Districts (TIDs), and the Ohio Department of Transportation continue coordinating projects across the Silicon Heartland Region. Last year's public involvement meeting covered several improvements in the County Line Road area. This second meeting focuses specifically on Licking County TID projects east of US-62. Discussion focuses on improvements along Duncan Plains Central, from US-62 to the Mink Street intersection, and the Mink Street and Duncan Plains Road intersection.

While each agency manages its own project(s), they are coordinating development, design, utility work, and construction schedules to reduce overlapping detours and minimize impacts on the public. Project information is being shared in one place to make it easier for residents to stay informed about improvements underway in Licking County east of US-62.

### Project Area

Public participation is solicited without regard to race, color, sex, age, national origin or disability. The Licking County Transportation Improvement District is committed to providing access and inclusion and reasonable accommodation in its services, activities, programs and employment opportunities in accordance with the Americans with Disabilities Act (ADA) and other applicable laws. To request a reasonable accommodation due to a disability, or language interpretation or translation services to participate in this meeting please contact Kim Christian (see contact information above) no later than March 8, 2026.

Questions and comments can be submitted on the project website, by mail, email, or phone (Please reference Silicon Heartland Regional Projects). Comments are welcome at any time; but those received by March 26, 2026, will be considered during this phase of development and formally documented.
